Dear Sir,

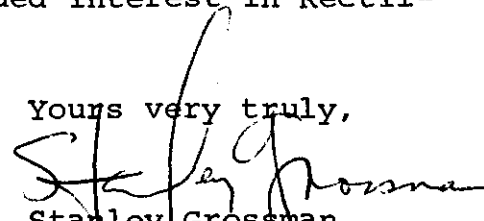

We would like to take this opportunity to thank you for your interest in Rectilinear products. Enclosed you will find the literature that you have requested.

Since price is not a major design criteria for us, we try to design the best speaker system that we are capable of building. Our most important design parameter is naturalness of sound, using the best materials available. Once this is accomplished, we back our products up with a liberal warranty policy and superb service.

We are confident that you will be convinced that you are getting the finest systems available when you compare our speakers to others.

Thank you, once again, for your continued interest in Rectilinear products.

Yours very truly,

Stanley Grossman
National Sales Manager
